# VISIONARY SCIENCE GLOBAL GROWTH OPPORTUNITIES 2017 QUARTER 4

Frost & Sullivan's Global Visionary Science Practice delivers comprehensive market assessment, best practices and technology research. Our strategic approach enables companies to achieve transformational growth maximizing opportunities in chemicals, materials, food and agriculture, and personal protective equipment markets in established and emerging economies.

Our global team of industry focused market research analysts, industry experts, and market consultants spread across 45+ offices in 30 countries continuously monitor industry trends, growth opportunities, technology and market changes, regulatory and financial implications, developed and emerging market and technology growth paradigms, competitive and comparative benchmarking enabled priorities, and many other research dimensions.

The following table of contents showcases our recently published and prospective studies.
